DIDACTIC PROGRAMMING YEAR 2024-2025

The MuBoma (Museum of Firefighters from Alicante Consortium) is the first and only museum of its kind in the Valencian Community, which is where its uniqueness lies, as well as having a rich museography and a large amount of materials from the late nineteenth and early twentieth centuries.

The MuBoma mainly shows the history of fire and the evolution of the fire brigade, but it also deals with industrialisation in Alcoy.

It offers visitors, in addition to audiovisuals and display cases, the chance to see a series of fire engines from the early 20th century, which are in perfect condition, such as the most outstanding piece, a 1921 Chevrolet. All of this is located in a former factory from the mid-19th century that has been restored for its cultural function. It is a perfect example of English-style industrial architecture and still retains part of the structure where the water wheel was located, which served as a driving force to propel the machinery inside. The 12-metre-high chimney is also in a perfect state of preservation.

Guided tours and educational workshops are the best way to showcase the heritage housed in the MuBoma of Alcoy and make it known to visitors in a fun and entertaining way. They are always adapted to the characteristics of the group.

LOCATION

MuBoma is located at 64 Alcañares Street; it can be reached by bus, with parking space available. Access to the outdoor and indoor facilities is very easy for adults and children, and there is also a lift inside for people with reduced mobility.

It is also interesting to know that in the vicinity there is a green area on the banks of the River Riquer, fitted out as a riverside promenade with a children's playground.

WORKSHOPS AND GAMES

Workshops and activities to complement the guided tour by educational levels.

INFANT - 1FRIST CYCLE PRIMARY

Tales of Fire and Water

A storyteller in Kamishibai theatre.

PRIMARY

Mathematical enigma

Card to recognise the emergency number 112.
